

5 Liter Bottle Water Vending Machine

Description

5 liter bottle drinking water vending machine is made of high-tension stainless steel materials and stainless plate steel with precise argon arc, infrequent distortion and fair welding effect. Stable component structure and function guarantee normal running of this water vending equipment in various conditions. Adopting filtration and purification technology, it can supply drinking water in accordance with national standards. The drinking water vending machine mainly consists of RO membrane, filter, powder coated steel cabinet, coin acceptor, bill validator and system board. This water vending equipment is usually installed in communities and provides 24-hour pure drinking water for customers. Consumers can buy purified water by coin or IC card.

Features

1. This drinking water vending machine is suitable for 5 L water bottles and the minimum size of water bottle is 200 ml.
2. With pre-treatment sand and carbon filters, this water vending equipment realizes strong pretreatment and reversed flushing to reduce using cost.
3. Equipped with digital water vend counter, the 5 liter bottle drinking water vending machine can record vending situation.
4. Water production capacity is from 400 GPD (1500 L) to 3000 GPD (11350 L) per day. The water sales capacity can be flexibly adjusted according to customers' needs.
5. The 5 liter bottled water vending equipment uses 24-hour uninterrupted UV sterilization to guarantee water quality.

Operation and Maintenance Attentions

1. We need to know the source water quality and choose a 5 liter bottle drinking water vending machine with proper water production capacity.
2. Pukui provides one year warranty for the broken parts of this water vending equipment and offers excellent after-sale service.

Packaging and Transportation

We package 5 liter drinking water vending machines in carton for ordinary order. For bulk order, we use polywood cases for sea or air transportation.

Technical Parameters of 5 Liter Bottle Water Vending Machine

Sub-Model	Daily Production	Power Input	Voltage	Source Water	UV Lamp	Ozone	Recycle Rate	Desalting Rate
