

Bag Ice Vending Machine

Introduction

Bagging ice vending machine represents a giant leap forward in the ice industry. It makes and dispenses pure filtered ice directly into customers' own cooler or into a bag. Customers will find that our ice is cleaner, more convenient, more environmental and tastes better than factory bagged ice. Our ice cube vending machines produce pure and fresh filtered ice on site. It mainly consists of powder coated steel cabinet, coin acceptor, bill validator, system board, ice making system and ice bagging system. People can buy bagged ice by coin or IC card.

Characteristics

1. Luxurious waterproof steel cabinet and front door open design contribute to safety and easy installation of this bagging ice vending machine.
2. This ice cube vending machine adopts advanced stable intelligent coin, induction IC card and note selling control technology.
3. Using energy efficient ice spray making ice technology, ice-cube is square and crystal clear.
4. GSM remote control system and digital vend counter make the bagging ice vending machine able to record the vending situation.
5. Adopting advanced RO purification techniques, this ice cube vending machine can provide high quality ice.
6. Water purifying system uses seven stages effective purifying and two sterilization processes (UV and Ozone).

Operation and Maintenance Attentions

1. It would be best for customers to send engineers to our factory for training of the bagging ice vending machine operation.
2. Our company offers one year warranty for the broken parts of this ice cube vending machine. Clients can contact us via email or phone for after sales.

Packaging and Transportation

We package the ice vending machinery in carton for ordinary order. For bulk order, we use polywood cases for sea or air transportation.
