

# Spiral Small Vending Machine

## Introduction

Spiral small vending machine is a kind of automatic vending machinery that has spiral springs. There are usually five adjustable spiral delivery channels suitable for five kinds of goods for sale. About 11 to 19 pieces of goods are placed for each channel selling about 60 to 95 pieces of goods totally. It has an extra large merchandise viewing window that is convenient for selling goods. This automatic vending machinery is usually stocked with drinks, snacks, cases and accessories for mobile phones and cameras, umbrellas, cosmetics, etc. Spiral small vending machine mainly consists of powder coated steel cabinet, coin acceptor, bill validator, system board, motor and spring. It is often placed in public places such as shopping centers and schools. Due to less labor cost and small occupying area, this automatic vending machinery is well received in the market.

## Features

1. Spiral small vending machine adopts computerized vending and owns sales record.
2. It accepts coins and bills from different countries.
3. Waterproof steel cabinet and front door open design contribute to safety and easy operation of the automatic vending machinery.
4. This equipment features module design, easy installation and convenient maintenance.

## Operation and Maintenance Attentions

1. We need to know the exact dimension of the product for vending.
2. Our company provides one year warranty for the broken parts of the spiral small vending machine. Customers can contact us via email or phone for after sale service.

## Packaging and Transportation

We package this automatic vending machinery in carton for ordinary order. For bulk order, we use plywood cases for sea or air transportation.
